

# User Acceptance Testing Report – BookNest

Date	21 February 2026
Team ID	LTVIP2026TMIDS47773
Project Name	Booknest where stories nestle
Maximum Marks	4 Marks

## Introduction

User Acceptance Testing (UAT) is performed to validate whether the BookNest application meets the end-user requirements. This testing ensures that the system functions as expected from the user's perspective.

## Objectives of UAT

- To verify application usability
- To confirm functional requirements
- To ensure user satisfaction
- To validate business flow

## UAT Participants

- End Users (Readers)
- Sellers (Book Managers)
- Project Reviewer

## UAT Test Scenarios

Feature	Test Description	Result
User Registration	Register using valid details	Pass

Login	Login with correct credentials	Pass
Book Browsing	View books with images and genres	Pass
Search & Sort	Search by name, author, genre	Pass
Cart	Add books to cart	Pass
Seller Actions	Add / Delete books	Pass
Logout	Secure logout	Pass

## Acceptance Criteria

- All major features function correctly
- Navigation is user-friendly
- No critical errors observed
- Application meets user expectations

## User Feedback

- Interface is clean and simple
- Book images enhance user experience
- Search and filter features are effective

## Conclusion

The User Acceptance Testing confirms that BookNest fulfills all user requirements and is approved for deployment and submission as part of the APSCHE internship.
